OUR CUSTOMERS

Our in-house experts understand the needs of complex low-voltage systems:

+ Structured Cabling

Our BICSI certified technicians are experts in designing and implementing the low-voltage structured cabling that makes up the foundation of your network.

+ Wireless / DAS Solutions

High-bandwidth wireless and distributed antenna systems for consistent and reliable connectivity.

+ Security Services

Empowering your security with seamlessly integrated systems including access control, monitoring services, fire and life safety solutions, and surveillance.

+ Audio Visual

State-of-the-art audiovisual technology that streamlines processes, enhances communication and boosts accessibility for building occupants.

+ Data Center / Mission Critical Integration

We offer full-service support to live data centers, ensuring uninterrupted operations through our integration of systems and applications.

WHY CHOOSE TSG?

We're a One-Stop Shop

Turn-key solutions, industry smarts, innovative capabilities, and a skilled workforce more than 800 strong, all under one roof.
