

Our team of VDC electricians and BIM modelers give our customers and project teams a deeper level of clarity on workflow, space utilization, product selection, prefabrication needs, and overall constructability.

With 3D models at our fingertips, we can prepare, construct, and complete even more efficiently.

**60+** **IN-HOUSE**  
**BIM MODELERS AND**  
**VDC ELECTRICIANS**

We've served as the BIM coordination lead for single programs upwards of \$500 million, saved clients millions through value engineering efforts, and shaved months off projects schedules.

#### LEADERS

**30+**  
Years of  
Experience

**VP, PRECONSTRUCTION**  
**FIRAS ALKHAYRI**

#### WHAT WE DO

- + 3D BIM Modeling
- + BIM Coordination Lead
- + 3D Scanning
- + Clash Detection / Resolution
- + As-Built Models
- + Shop / Install Drawings
- + Trimble Points
- + 4D Schedule BIM Integration
- + 5D Const BIM Integration
